

Second set of question of the day, Plug your headphones in

You have 20 minutes to find answers online:

- 1. How many categories of “Elementary Particle” ?**
- 2. What makes each categories different from each other?**
- 3. What categories do the particles you identified in Part 1 belong to?**

Quality of sources

4. How many websites did you go to in order to verify your information? (1 or 2 poor, 3 or 4 fair, 5 or 6 good)

5. How do you know if the website is a good source of information? (how old is it? What organization / person put the site together)

Remove your headphones and share your results with your table partner. Be prepared to share out with the class what you found
